CLAIMING SUCH AIRCRAFTS ARE WAR VESSELS.

BREACH OF NEUTRALITY

Is Contended In a Note to the State Department Submitted By German Ambassador As Well As Violation of The Hague Convention.

(Associated Press Telegram)
Washington, Jan. 25.—Germany protested to the state department today through her American Ambassador, Count Bernstorff against shipments of American hydroplanes to the European belligerents on the ground that such aircraft are war vessels.

A statement issued by the embassy today says:

"The Curtiss works at Hammondsport, N. Y., have sold and sent to England the well known hydroaeroplane America and five hydroaeroplanes of the same type. Thirty hydroaeroplanes of a different type have been ordered by England and are under construction by the same firm. Also Russia has ordered a number of these vessels from Curtiss for use in her navy.

There is no doubt, and does not need any explanation, that from the standpoint of international law, hydroaeroplanes have to be considered as war vessels and that therefore by article VIII of the agreement concluded at The Hague on Oct. 18, 1907, neutral countries are prohibited to supply belligerent countries with such vessels. The selling of hydroaeroplanes by the Curtiss works therefore constitutes a breach of neutrality. Hydroaeroplanes are not especially mentioned in The Hague agreement for the simple reason that this kind of war vessel did not yet exist at that time."

GERMAN REPORT OF NAVAL FIGHT ADMITS DEFEAT

(Associated Press Telegram)
Berlin, via London, Jan. 25.—The following official announcement on the naval engagement in the North Sea yesterday was given out in Berlin today:

"During the advance of our armored cruisers Seydlitz, Derfflinger, Moltke and Bluecher, which, accompanied by four smaller cruisers and two flotillas of torpedo boats, were steaming in the North Sea, these vessels became engaged with a British detachment composed of five battle cruisers, several smaller cruisers and twenty-six torpedo boats. The engagement after three hours time at a point seventy miles west northwest of Heligoland, and retreated.

"According to the information available, one British battle cruiser and one of our armored cruisers, the Bluecher, were sunk. All the other German ships returned to port.

Banking Department To Be Investigated, to Find Means for State Economy

(Associated Press Telegram)
Columbus, Jan. 25.—Interest in legislative activities this week was centered in the investigations to be conducted by joint committees of the two houses into the affairs of the banking department, and into state departments with a view of finding means of practicing economy. The administration program for decentralizing the tax system created by the Warnes law, which is expected will be disclosed this week by introduction of another bill repealing the Warnes measure, also was the subject of discussion among legislative observers.

Another decentralization bill, prepared by Representative Smith of Morgan, chairman of the agricultural committee, is ready for introduction

Rockefeller Testifies Before Committee On Industrial Relations

(Associated Press Telegram)
New York, Jan. 25.—John D. Rockefeller, jr., president of the Rockefeller Foundation, one of the philanthropic foundations being investigated by the federal commission on industrial relations, was the first witness at the resumption of the hearings today. His testimony was confined to the purpose and methods of the Rockefeller foundation and covering points not contained in the foundation's answers to a list of questions by the commission which were made public yesterday.

The answers by the Rockefeller Foundation are divided into two parts, the first of which is signed by Mr. Rockefeller, jr., as president, and by Jerome D. Greene, as secretary.

Complying with the commission's request the Foundation has supplied the commissioners with copies of the Foundation's charter, constitution and by-laws. Replying to other questions the Foundation stated that it was not a consolidation of pre-existing organizations but a distinct creation with its own funds.

The total funds of the foundation on December, 1914, are stated as \$102,959,817. Its holdings of stocks and bonds are given in detail. The character of its investments is controlled

and may be presented today or tomorrow. It provides for substitution of a board of nine members, to serve without pay, for the present agricultural commission of four high salaried members. The proposed large board would elect an executive secretary, who would be authorized to appoint heads of substitute departments and bureaus now under the direction of the commission.

Considerable difference of opinion among Republicans is anticipated by legislative leaders over the taxation question, although it is denied that this difference will lead to a serious split among the administration forces. The Parrett house bill already has gained a number of supporters, and the Garver senate bill is favored by many. Leaders point

by the finance committee composed of John D. Rockefeller, jr., Starr J. Murphy and Jerome D. Greene. Appropriations are made by the board of directors or the executive committee. The amount of its holdings is not limited by its charter. No part of the principal is to be distributed except by two-thirds vote of all members.

New Route Discovered In Alaska, Expected To Open Richest Territory

(Associated Press Telegram)
Washington, Jan. 25.—Official announcement was made today by Secretary Redfield of the discovery of a practical navigable channel from the Bering sea into the mouth of the Kuskokwim river, thus opening the second greatest river in Alaska to commerce. The discovery was made by Captain Lukens of the coast and geodetic survey.

In a statement announcing the discovery, Secretary Redfield points out that new steamship lines are to be established to transport the commerce from the thousands of square miles of virgin country in the Kuskokwim valley, rich in mining, fishing and agricultural resources.

Realizing that although it cannot be predicted with certainty what this new region will develop when thoroughly prospected, the secretary says it is not unreasonable to suppose that the near future will see the Kuskokwim river of commercial importance comparable with that of the Yukon river.

"The Kuskokwim," says the secretary, "is nine miles wide at its mouth and navigable for over 600 miles inland. The great submerged flats of the delta of this river extend 100 miles out to sea, and it was through this uncharted delta that the surveying steamer 'Yukon' made the discovery of the channel which means so much to the commerce of that section of Alaska.

"The Kuskokwim is one of the three great Alaskan rivers emptying into the Bering sea which has been opened to commerce as a result of the charting operations of the coast and geodetic survey. The mouth of the Yukon was surveyed in 1898 and

WHEAT PRICES AGAIN SOAR AS MARKET OPENS

(Associated Press Telegram)
Chicago, Jan. 25.—War prices for wheat soared higher today than ever. May delivery touched \$1.45 5-8, a rise of 11-8 cents as compared with Saturday night. The highest previous quotations since European hostilities began, was on Jan. 21, \$1.45 2-8. Offerings of wheat today were light and the buying demand excellent.

U. S. SUPREME COURT GIVES DECISION OF IMPORTANCE TO LABOR.

(Associated Press Telegram)
Washington, Jan. 25.—The Kansas so-called Coercion statute making it unlawful for any individual or corporation to coerce, or influence any person to enter into an agreement not to join or remain a member of a labor organization as a condition of such person securing or continuing in the employment of such individual or corporation, was today annulled as unconstitutional by the supreme court.

POSITION OF NEUTRALITY IS DEFENDED

(Associated Press Telegram)
Washington, Jan. 25.—Senator Stone, chairman of the senate committee on foreign relations, arranged to incorporate in the records of the senate today the long reply which he received from Secretary Bryan, defending the Washington government's interpretation of its rights and duties as a neutral in the present war.

WILLIS CARES FOR "TRUE DEMOCRACY" IN APPOINTMENT

Columbus, Jan. 25.—Governor Willis today confirmed rumors that he had decided upon the appointment of Former State Treasurer D. S. Creamer as a member of the state board of administration. Creamer will succeed John P. Shaffer, Democrat, a member of the board of administration about May 5. Creamer was one of the leaders of the "True Democracy" league which booted Governor Cox in the recent election and supported Governor Willis. This appointment is the first official recognition by Governor Willis of the "True Democracy."

WILLIS CARES FOR "TRUE DEMOCRACY" IN APPOINTMENT

After announcing to newspapermen that it would be "safe to say that Mr. Creamer would be made a member of the board of administration," the governor was asked if there was any truth in the rumors that Newton M. Miller of Columbus would be appointed state insurance superintendent.

WILLIS CARES FOR "TRUE DEMOCRACY" IN APPOINTMENT

"I don't believe there is anything in that report," said the governor. Mr. Miller was a caller at the executive office today. Other callers included J. Howard Secret who held a conference with the governor on the liquor license situation, James Bayl and Colonel Worthington Kautzman.

THE HOME BUILDING ASSOCIATION COMPANY OF NEWARK, OHIO

The Steady Saver's Club

The success of those who saved in our Christmas Money Club is merely an example of what any one can accomplish by steady saving with a well-defined plan or purpose in view.

For years we have had many Steady Savers. In fact the OLD HOME is a Steady Saver's Club and always has been and we expect to make it even more so in the future.

Some people save for a home, others save to accumulate \$100, \$200, \$500 or \$1000, while still others save five or ten per cent. of their incomes.

The important thing in making a success of saving is to have an object that makes saving easy for you by the extra incentive it gives you.

Pick out such an object for yourself—take the one thing you desire most, in a money way, and save for that.

Open an account here and work with that in view.

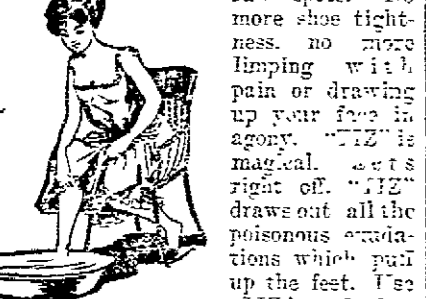

One dollar or more will start you.

HOW "TIZ" HELPS SORE, TIRED FEET

Good-bye sore feet, burning feet, swollen feet, sweaty feet, smelly feet, tired feet.

Good-bye corns, callouses, bunions and raw spots. No more shoe tightness, no more slipping with pain or drawing up your feet in agony. "TIZ" is magical. It draws out all the poisonous excretions which pull up the feet. Use "TIZ" and forget your foot misery. A few comfortable feet feel like a 25 cent box of "TIZ" now at any drug or department store. Don't suffer. Have good feet, glad feet, feet that never swell, never hurt, never get tired. A year's 1st comfort guaranteed or money refunded.

NORTH FRANKLIN

The next regular meeting of Franklin Grange will be held January 25. On this night the new officers will be installed. The installing officer will be a prominent member from one of our neighboring Granges. Refreshments will be served and a full turnout of the members is desired.

The Pleasant Ridge Literary society was entertained Wednesday evening at the home of Mr. and Mrs. E. J. Keller.

Mr. Lovell and family of West Newark have moved on the Wilson farm, which was recently vacated by Mr. Brownfield.

The members of the Goodwill society, together with a few of their friends, were entertained at the home of Mrs. A. J. Hallett Thursday afternoon. The next meeting will be at the home of Mrs. Fred Orr.

Several from here attended the funeral of Red L. Laver Tuesday.

Prof. Byron Sawyer, district supervisor, visited the schools here this week.

Five children of the Grange family, Mrs. Nellie Mook of Black Run visited her parents here this week.

Earl Vermillion and Howard Courson have been on the sick list.

The next county Panama will be entertained by Franklin Grange No. 2747, the largest Grange in the county. The meeting will be held in the Lutheran church, April 19.

FIVE MILLIONS IN BELGIUM FACE STARVATION

Ohio Commission of Which Captain Heisey is Member Appeals to Ohio Citizens.

The Ohio Commission for War Relief of which Captain A. H. Heisey of Newark is a member, submits the following statement for consideration of the readers of the Advocate:

Editor Advocate:—The well-known generosity of the people of Ohio and their willingness to respond in all cases of human need and suffering, prompts the Ohio Commission for Relief of War Sufferers to give a definite statement of the conditions and needs which justify an appeal for generous assistance from the people of this state at this time.

There are in Belgium at the present time 4,000,000 or 5,000,000 people utterly unable to provide for their own wants and with hunger and starvation staring them in the face. These are non-combatants, chiefly women and children and old men and cripples, who are deprived of any opportunity they may once have had to earn a living and for whom money is of no use as there is not enough to be purchased in their stricken country to meet their needs.

The regulations of war will not permit England or France to send any materials to the relief of these unfortunate. Holland has more than she can do to care for those who are crowded in her always narrow borders. Italy is taxed by the suffering of those stricken by an earthquake. Germany is doing what she can, but her first concern must be of her own people and her own army. There is no place in the world to which the women and children of Belgium can look for succor except America. From the lips of two of Ohio's leading citizens, Myron T. Herrick and Brand Whitlock, the word has come that the need is great and that the need is urgent.

The Ohio Commission for the Relief of European War Sufferers therefore appeals at once to the citizens of the state for the most generous contributions possible of perishable food stuffs, including wheat, corn, rye, rice, beans, tinned milk and salt and smoked meat, dried beef, etc. Potatoes, provisions in glass fruits and fresh vegetables are barred because of their perishable nature. New clothing is acceptable but European regulations forbid the landing of second-hand clothing. Contributions of cash in all sums are solicited and all money so contributed in the state of Ohio will be spent in the state of Ohio, in the purchase of grain and food stuffs indicated.

The Ohio Commission, or anyone contributing to it, will be at no expense for the transportation of relief. This very large item is cared for by the National Association, which pays all charges from the several depots in Ohio, to the sufferers in Europe. The state commission has four field workers who will be sent upon request to any section of the state to assist in organizing the work.

The very earliest moment at which the Belgians can hope to sustain themselves is the middle of summer, and this will be possible only in the event that the contending armies shall have moved to other points. Fields which are fought over from day to day cannot be cultivated and made to produce food.

Confident that the generous people of Ohio have only to know of a real need to meet it in the spirit of fine helpfulness, these facts are submitted for the information of all concerned.

AUSTRIAN REPORT, MODESTLY CLAIMS RUSSIAN DEFEAT

London, Jan. 25.—Although Vienna reports an Amsterdam enlarge upon Austrian success in Bukovina, claiming that the Russians are retreating with heavy losses of munitions and prisoners, a wireless dispatch from Vienna early today giving an official communication issued there, says only this about the fighting in that region:

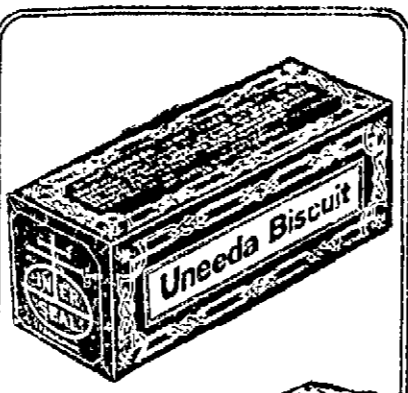

"In Bukovina quiet reigns after our last successful battles."

The communication also tells of fighting in the Carpathians as follows:

"In the Carpathians the Russians were driven out of several trenches which they had pushed forward south of the passes."

NEW TREATY

BEING NEGOTIATED BY THE U. S. WITH COSTA RICO. STIRS DEEP INTEREST

OF Latin-American Representatives—Secretary Bryan May Visit These Countries Officially.

(Associated Press Telegram)

Washington, Jan. 25.—The Latin-American diplomatic corps manifested a deep interest today in the announcement that United States government had begun to negotiate a new treaty with Costa Rica, supplementary to the past with Nicaragua now pending in the United States senate by which an option in an inter-oceanic canal route is sought for this government as well as a naval base in the Bay of Fonseca. With the idea of improving its relations with the Central American republics, the United States government intends also to treat liberally with Honduras and Salvador for their rights in the Bay of Fonseca. Secretary Bryan also may stop in these countries for an official visit on his return from the opening of the Panama canal in March. No price has yet been determined upon as compensation for an option on Costa Rica's rights in the canal route.

The rights of Costa Rica in the Bay of San Juan which forms a part of the proposed canal route and is the natural boundary between that country and Nicaragua has for some time been the basis of protest against the pending treaty recently reported favorably to the senate.

OFFICER MOSER RESCUES A MAN FROM ASSAILANT

Louis Thompson, aged 32, living in Columbus, was rescued Saturday night by Special Officer J. R. Moser, at the Ohio Electric Co., at Mount and Gift streets, Columbus, as he was being badly beaten. James Ryther, aged 25, was arrested by Officer Moser on a charge of assault and battery.

When Officer Moser detected the scuffle he was aboard a traction car and the light on the front of the car threw the men into full view. He got off the car and when he rescued Thompson his face was a mass of cuts and bruises and covered with blood.

He took both men to the Columbus city prison, where Thompson's face was washed and he was given medical attention. The fight, the police say, originated over a pool game which was played earlier in the evening in a nearby saloon.

AUSTRIA-HUNGARY AGREES TO RELEASE SERB PRISONERS

(Associated Press Telegram)

Sofia, Bulgaria, via London, Jan. 25.—As a consequence of Bulgaria's intervention, the Austro-Hungarian government has agreed to release Bulgarian prisoners of war, originating from Macedonia, who fought with the Serbians.

More than 2000 of these have already arrived here but 200 others, having contracted typhus during their captivity in Hungary, and the rest of the prisoners, numbering several thousands, have been stopped at the request of Bulgaria because of the fear that they would spread the malady.

COSHOCTON FATHER MURDERS HIS WIFE AND KILLS SELF

Coshocton, Jan. 25.—In the presence of their two children, James, aged 11, and Josephine, aged 4, Harry Chaney, aged 35, a teamster, shot his divorced wife, aged 30, and then turned the revolver on himself and fired a bullet into his brain Saturday night. Both died soon after being taken to the city hospital.

Chaney and his wife were divorced two years ago. Until a few months ago they had lived apart. Recently Chaney was a boarder at his wife's home. Saturday night Chaney went home and found his wife and two children alone. Without any provocation, so far as the police could learn, Chaney pulled a revolver from his pocket and opened fire on his wife.

One bullet penetrated her left breast just above the heart. Another her skull behind her right ear. Chaney then placed the gun behind his left ear and fired.

The little boy gave the alarm after the shooting.

TWO PRIVATE PENSION BILLS.

Congressman Ashbrook has just secured the passage of two private pension bills, one for the relief of William Cagney of Newark, increasing his pension to \$24 per month; the other, for the relief of Mrs. Eliza E. Wells, increasing her pension to \$24 per month. Mr. Cagney has a most meritorious claim and Mrs. Wells is a deserving widow of Johnstown. Both cases were highly recommended to Mr. Ashbrook and he was very glad to bring them before Congress for favorable action. The present pension laws did not give them adequate relief, both being badly disabled.

THREE REASONS

Each With Two Legs and Ten Fingers.

A Boston woman who is a fond mother writes an amusing article about her experience feeding her boys.

Among other things she says: "Three chubby, rosy-cheeked boys, Bob, Jack, and Dick, respectively, are three of our reasons for using and recommending the food, Grape-Nuts, for these youngsters have been fed on Grape-Nuts since infancy, and often between meals when other children would have been given candy."

"I gave a package of Grape-Nuts to a neighbor whose 3-year-old child was a weakened little thing, ill half the time. The little tot ate the Grape-Nuts and cream greedily and the mother continued the good work, and it was not long before a truly wonderful change manifested itself in the child's face and body. The results were remarkable, even for Grape-Nuts."

"Both husband and I use Grape-Nuts every day and keep strong and well and have three of the finest, healthiest boys you can find in a day's march."

Many mothers instead of destroying the children's stomachs with candy and cake give the youngsters a handful of Grape-Nuts when they are begging for something in the way of sweets. The result is soon shown in greatly increased health, strength and mental activity.

the city prison and since the administration of Safety Director Dayton, has been on duty at headquarters as wagonman.

His years of experience have equipped him with a fund of knowledge of police matters which will revert to the benefit and efficiency of the department. He is popular among the men and as captain of the department will have charge of the night force.

He is married, occupies a new residence property in Linden avenue. The announcement of his appointment pleased his many friends, both in the department and among the citizens in general.

Robert Francis, who has been acting captain since Sheriff Swank assumed his new duties, was returned to day duty at headquarters, being one of the wagonmen. Wagonman James Donley, who has been doing night duty, has been transferred to day duty. Driver William Hinger was detailed to Donley's place as night wagonman and Patrolman T. H. Stewart was appointed driver to succeed Mr. Hinger.

HOW SOLDIERS LIVE AND FIGHT IN THE TRENCHES.

London, Jan. 23rd.—When it rains the trenches are filled with water. The cold is always of the damp, penetrating, dreadful kind that chills to the very marrow. Hot food is served three times a day to the men in the trenches by other soldiers, who carry like rabbits through long uncovered tunnels running back from the works concealing the guns.

These men in the trenches must have good food in order that they can have good blood and if they have good blood, they have good courage, they keep warm because their circulation is good and their extremities are warm from exercise. Many men are invalided, however, because their blood and their stomach were not right to withstand the awful hardships of this winter campaign.

When you do not properly digest your food your blood becomes thin and every organ of the body soon feels the effect. The result is—headaches, sleeplessness, nervousness and many other symptoms—due to accumulation of poisons in the body. Unless the stomach is given aid at this stage—more serious illness follows. Now is the time to help your weakened stomach—now is the time to take Dr. Pierce's Golden Medical Discovery (in tablet or liquid form). It has the same power to set you right as it has been proved to have in thousands of other cases. It will help your stomach so that the food you eat will nourish and sustain you and make good reviving blood. It will enable you to get rid of the waste as sluggish liver and irregular bowels have permitted to accumulate in your system.

Dr. Pierce's Golden Medical Discovery is composed of known native healing remedial roots and herbs with no alcohol nor narcotic drugs to give you harmful habits. It can now be obtained in tablet or liquid form from dealers, or send 50 stamps for box of tablets.

WAGE QUESTION ONLY ONE FOR CONCILIATORS

OPERATORS' CONTENT THAT THEIR OFFER IN STRIKE ZONE IS EQUIVALENT

To That Paid in Other Ohio Mines But This Strikers' Officials Deny.

Cleveland, O., Jan. 25.—When Daniel J. Keefe and Hywell Davies, federal strike conciliators appointed by Secretary of Labor W. B. Wilson went into conference today with coal operators of the Eastern Ohio field, where 15,000 miners have been on strike since the first of April last, they hoped to be able to conclude hearing the mine owners' side of the controversy before tonight. This, however, was not certain, Mr. Davies said.

Messrs. Davies and Keefe conferred informally with a number of operators yesterday and last night securing individual expressions with reference to the situation in the strike zone, and, it was said obtained some first hand information. No plans for future conference have been formulated by the conciliators, they said this morning. "where we go from here all depends on developments at today's conference," Mr. Davies said. He said it was possible that a report would be made soon to Secretary Wilson, but intimated that other conferences, probably with the miners' officials, may be held before any report was made.

The conciliators, since they came here, have been told by the operators, it was said today, that the basis on which the miners' officials contended the scale for the three districts of Ohio—Hocking, Cambridge and Eastern Ohio—was wrong. The mine owners in the strike zone say their coal is so much softer than in the other two districts that if they paid the 47 cent scale demanded, they really would be paying a greater wage than is now being paid in the districts where mines are operating. They also told Messrs. Davies and Keefe that if they paid 44.61 cents a ton—their previous offer—that they would be paying "the equivalent to last year's scale which is what the policy committee of the United Mine Workers' organization originally asked for."

On the other hand, the miners' officials contend the wage rate for the three districts was correctly computed and that the difference in the grade of coal in the entire state is so small that the eastern Ohio operators' contention is groundless.

While no official statement has been made concerning the conference, the conciliators cannot bring the miners and operators to an agreement on these points. It is said they will report the contents of both sides to Secretary Wilson and then give his opinion as to the merits of the case with possible recommendations.

A. A. Augustus, president of the Cambridge Collieries company was here yesterday and conferred at a hotel with Mr. Keefe. The Cambridge Colliery company, some time ago signed the 47-cent-a-ton scale and is now operating its holdings.

TURKEY BANQUET WAS ENJOYED AT FROMHOLTZ HALL

Returning a complimentary banquet tendered them Sunday evening three weeks ago, the members of the Licking County Retail Liquor Dealers yesterday evening reciprocated and tendered their employees a banquet of sumptuous elegance that will long be remembered by those present.

The affair took place in the Fromholtz Hall in East Newark. Three tables the entire length of the hall and one, at the head of these "U" shaped, seated the one hundred and seventy-five guests who participated in a turkey banquet of three courses prepared and served under the personal supervision of Caterer Charles Dean, and that gentlemen certainly was deserving of the many compliments which he received. The tables glistened in their snowy whiteness with glittering glass and silver ware and dotted their entire length with handsome bouquets of cut flowers. The service was excellent, a corps of colored waiters serving the tables under the direction of Wm. Gray, head waiter.

After all had been seated the following menu was served:
Oyster Cocktails
Celery, young Radishes and Onions, Pickles and Olives
Turkey with Oyster Dressing
Mashed Potatoes with Gravy
Peas in Timbales
Candied Sweet Potatoes
Brick Ice Cream, Fruit Cake, Coconut Cake, Demi Tasse

Cigars
After the last course had been served and the tables cleared Mr. Charles Henry was announced as toastmaster of the occasion and he surprised his most intimate acquaintances with his oratory and witticisms which he injected into his introduction of the various speakers of the evening. He proved an ideal presiding officer and kept things moving in a lively manner.

The first speaker of the evening was Ralph Colt, the well known president of local 412, B. I. A., who in a neat manner on behalf of his fellow members thanked the employers for their delightful banquet and then launched into a dissertation on the benefits to be derived from organization and affiliation. Mr. Colt's address proved highly interesting.

V. J. McNamara, ex-president of the Akron B. I. A., 551, and delegate to the Ohio State Federation of Labor at Canton, was introduced as a visiting brother and he made an excellent address full of good suggestions which undoubtedly will prove fruitful.

Col. Robert Doid, the well known business manager of the Buckeye band was called upon and proved that he is just as good an orator as he is a musician. "Bob" as he is called, always has a smile and pleasant greeting for everyone and his after dinner speech was one of the hits of the evening.

There were a number of other speakers for Toastmaster Henry would not allow a dull moment to creep into the occasion and the addresses touched upon various topics at the discretion of the toastmaster. After the completion of the program a social hour was enjoyed.

The Nutter and Hawkins orchestra furnished music and they rendered all the latest popular selections. Their repertoire including song hits of the big city cabarets. Many were the encomiums received by this popular organization of young musicians. At 8 o'clock the hall was closed and all returned to their homes after having enjoyed a most delightful evening. The committee having the affair in charge was Charles Dean, James Fitzsimmons, Frank Pfeiffer, Frank Garrison, Ed Schaller, J. V. Baker and S. C. Burrell.

GREAT DAY AT THE GLAD HAND CHURCH.

The members and friends of Tenth Street U. B. church were made to rejoice on account of the great outpouring of the "Holy Spirit" in all the Sunday services. After the morning preaching service, while the communion services were being held a great silence seemed to take control of all present it was a time of heart searching when all were brought face with life and its obligations. God has been working in His own good way during the past week. At the regular service on Sunday night a week ago an invitation was given for folks to come to Christ, two came to the altar; at the Wednesday night prayer meeting the call was again given, four responded and seven joined the church. Last night was a fitting climax for such a week when seven came to the altar. So we think if God wants to save folks at every service, we ought to have services every night. Beginning at 7:30 each evening this week you will find services and a welcome at the Tenth Street U. B. church.

Menace of Militarism.

"The sounds of cannon drown the canons of civilization; war is the annihilation of the decalogue."

A public meeting of the students of Columbia university was recently held to learn the undergraduate attitude toward increased armament in America and to express disapproval of the propaganda for militarism which had been foisted upon the American public by vicious and insidious war scares. The attendance was large and great enthusiasm was manifest in the adoption of a resolution to go on record "as opposed to militarism in general and an increase in our army and navy in particular."

The theory of peace through armaments has been exploded by the great war in Europe. One man in addressing the students observed:

"Why should America now be required to go on a war footing? There has never been a time when there has been less need of preparation for war. The United States has not an enemy on the face of the earth."

Instead of preventing war, armaments in Europe caused war. The present European war has killed 2,000,000 in 5 months. Seven men are sick for each man shot on the field, two of the seven will die at home later on. Think of the palsied and paupered generation tomorrow! And the real carnage has just begun!

Do you know we spend over 72% of the Federal Revenue on war? That means \$3.66 for every man woman and child. Or \$160,387,453 on the war department, and \$132,262,862 on the navy—and only \$170,329,673 in all other departments! What a fearful sewage sink for our money!

Carter Harrison is running for mayor of Chicago. There's not much news in the announcement for he has been doing that very thing for years.

It is said that there are 9000 more horses in Ohio than last year. Is the Warnes law the sire?

The High Cost of Distribution

NO. 2

A farmer living in the outskirts of a large town tried to market some potatoes at the grocery stores in that place. He was unable to dispose of them. Finally he sent them to a commission merchant a hundred miles away. Coming into the neighborhood a few days later, he found that some of the grocers were selling his potatoes. They had paid freight over 200 miles of distance and at least one middleman's profit, plus several carting charges.

Another farmer living near a medium sized city went in one day and tried to market a supply of apples. He spent the forenoon going the rounds of the grocery stores. None of them would look at his product or any part of it. At noon he sold the wagonload to a wholesaler. He remained around the town until night. Just before leaving he had the satisfaction of seeing a barrel of his apples being opened in front of a grocery store that had refused to buy them direct from him. The

grocer had paid one cartage and a middleman's profit, all of which was cheerfully charged up to the consumer. Whoever stops to ask whether all this machinery is necessary?

Gov Glynn of New York in a recent address before a convention of co-operative societies, remarked that the farmer gets only 37 cents on every dollar that the consumer pays for his product. Several farmers present said the governor had put the farmer's share too high. Who gets the rest?

At this meeting one farmer told of making a personal investigation in New York city to see what the consumer was paying for his food products. He went in at one time when potatoes were very scarce and the farmer was getting \$1.35 a bushel. The consumer was paying \$1.50 to \$2.00. He looked the matter up a second time when potatoes were very plentiful, and the farmer was getting only 15 cents a bushel. He was not able to find that the consumer was paying appreciably less.

On a Snowy Day.

By John Kendrick Bangs

The earth is like a ball of snow.
So round, and white, and smooth and great
I'm tempted solely forth to go
And shiver hard at adverse fate,
Just as in youthful days I sped
Fat snowballs at some fellow's head,
And laid him low
At the first coming of the snow.

Children's Sayings

CHARLES H. MILLER

Thirteen months old son of Mr. and Mrs. Geo. Miller, 154 LeRoy street, city.

Robert, aged fourteen, was asked to act as pallbearer at the funeral of a companion and dreaded the ordeal most profoundly. His small cousin of five endeavored to console him and said, "Why, Robert, I wouldn't mind it much. I was ring-rarer once and it wasn't so very hard."

Little Shirley's mother had been ill at the hospital and one glad day the family auto was sent to bring her home. Ethel was allowed to go along and was very solicitous about her mother's ability to go home, plying her with questions. Mamma, do you feel quite well? "Do you think it won't make you sick to ride home?" etc., etc. The real cause of her solicitude was divulged when she finally asked, "But Mamma, do you think you are well enough to spank?"

Ethel had come home from a party where the refreshments had evidently been profuse and more or less indigestible. She was very enthusiastic about it all and was relating the numerous "stunts" performed by her small companions. Her mother proudly said: "And what did my little girl do? Something, I hear." "Oh, yes, mother, proudly announced Ethel. "I tawed up."

GETTING HIS ORDERS

Uncle Walt

HOME MADE.

Why send afar, to Cork or Rome, for Sunday hats or daisies of hay? Let's buy the goods we make at home, and show we're patriots, that way! The giant vessels sail the deep, and bring us doddads made abroad; we buy such traps, and fail to keep our money on our native sod. Those ships take back our hard earned cash, to pay the freight for Europe's kings; to pay for bottled succotash, and stuff we grow at home, by jings. My wife's new lid was made in France, and 'tis a phony thing, indeed; and broadcloth in my Sunday pants was manufactured by the Tweed. The sauce the grocer sent today was brought from Lunnon in a crate it costs like blitzen—I must pay the duty added to the freight. We sing our patriotic songs, and boost the flag, and seldom cease; but when we want gargoles or songs, we ship them in from Southern Greece. And, as I write, a hundred barks bring curleyquees across the foam; oh, profit by these sage remarks, and learn to buy your junk at home!

Children Taught Too Much About Rights, Too Little About Their Duties

Photo by American Press Association.

By SAMUEL W. MCCALL, Former Congressman From Massachusetts

THE most serious criticism which I would make of our school system is that it does not pay sufficient attention to character training; that it neglects to instill into the youth of the nation, as effectively as it might fairly be expected to do, the broad moral principles upon which alone reliance can be placed for a sane and healthy conduct of life.

If I had to compress this criticism into a single concrete phrase I would say that our children are taught A GREAT DEAL ABOUT THEIR RIGHTS AND RELATIVELY LITTLE ABOUT THEIR DUTIES.

Native and foreign observers have told us again and again that in respect for authority and in regard for the rights of others our people fall behind the standard set by countries whose general level of civilization is, in our opinion, much lower than our own.

THESE FAULTS OF CHARACTER, TO WHATEVER EXTENT THEY EXIST, ARE, IN SOME DEGREE AT LEAST, TRACEABLE TO FAILURE OF OUR SCHOOLS TO MEET THE RESPONSIBILITY WHICH RESTS UPON THEM TO GIVE HUMANE GUIDANCE TO OUR CHILDREN DURING THEIR MOST IMPRESSIONABLE YEARS.

RID STOMACH OF GASES, SOURNESS, AND INDIGESTION

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drastic drugs.

Pape's Diapensin is noted for its speed in giving relief; its harmlessness, its certain unailing action in regulating sick, sour, gassy stomachs. Its millions of cures in indigestion, dyspepsia, gastritis and other stomach trouble has made it famous the world over.

Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any drug store and then if anyone should eat something which doesn't agree with them; if what they eat lays like lead, ferments and sours and forms gas; causes headache, dizziness and nausea; eruptions of acid and undigested food—remember as soon as Pape's Diapensin comes in contact with the stomach all such distress vanishes. Its promptness, certainty and ease in overcoming the worst stomach disorders is a revelation to those who try it.

Personal Injury Case on Trial This Afternoon—Probate and General Court News.

In the case of the City of Newark vs. the Central Ohio Realty Company, a decree was entered in favor of the defendant. This was a suit in ejectment to recover possession of certain real estate in this city near the east Main street bridge, which was leased a number of years ago for a woolen and cotton mill site. The city claimed that by reason of the discontinuance years ago of the manufacture of woolen and cotton goods, it should be given possession of the property.

Obituary

Mrs. W. S. Stoner.
Word has been received here of the death of Mrs. W. S. Stoner of Holister, Mo. Mr. Stoner will be remembered as a barber of Newark a few years ago. Mr. Stoner died of gall stone. She was the oldest daughter of Mrs. Cynthia Gorsuch.

Mrs. Margaret Toney.
Mrs. Margaret Toney, age 62 years, wife of Charles A. Toney, an employee of the B. & O. railroad company here, died Saturday night at 8 o'clock at her home in Buckingham street after an illness of several months due to a complication of diseases. She was a member of one of the older and most highly respected colored families in the city.

Mrs. Toney was born May 11, 1852. In 1874 she was united in marriage to C. A. Toney. To this union were born three sons, Clifford, Harry and Benjamin. Besides the husband and children, she is survived by four sisters, Mrs. Susan Woodlan, Mrs. Clara Smith and Mrs. Maude Nelson of Chicago, Mrs. Zoe Burne of Phoenix, Ariz., and three brothers, Henry Lucas of Newark, Charles and John Lucas of Phoenix, Ariz. A grandson, Christian Toney, reared by Mrs. Toney as her own son, also survives.

Mrs. Toney was a consistent and faithful member of the A. M. E. church for many years and died in a full belief of a life of immortality. Among her large circle of friends she was highly regarded as a woman of rare character and her loss will be felt keenly, not only by her relatives but by the friends.

Funeral services will be held Tuesday at 2 o'clock at the home in Buckingham street. Interment at Cedar Hill cemetery.

Samuel A. Thompson.
Samuel A. Thompson of South Sixteenth street, died Monday morning after a year's illness. He was 54 years of age and was born in Licking county. Mr. Thompson was survived by a widow and several children. His illness has baffled physicians and Monday an autopsy was held by request of the family at the Criss Brothers morgue in West Main street, performed by Dr. G. W. Sapp, assisted by Drs. J. C. Shiver and H. P. Martin. It was found that death was ultimately due to the shutting off of the air passages at the place where the windpipe divides, a number of small substances being found resembling gravel and evidently of a salt deposit.

The funeral will be held Wednesday, the exact hour having not been determined.

In loving remembrance of my beloved husband, William H. Zipperer who died Jan. 24, 1914.

Gone But Not Forgotten.
One lonely year has past away since death's cold hand did take you. And never since I saw you last Did my fond thoughts forsake you. The flowers that lie upon your grave May wither and decay; But the love I bore for you Will never fade away.

From his loving wife,
MARY ZIPPERER.

Card of Thanks.

We desire to extend our heartfelt thanks to our friends and neighbors for their kindness and sympathy during the sickness and death of our beloved baby, James Walter Diehl, also for the beautiful floral offerings. We also thank the Ohio Light & Power Co. employees for their kindness and beautiful floral offerings. Mr. and Mrs. Hugh Diehl.

CRITICALLY ILL WITH TYPHOID.
Mrs. Paul May Elizabeth Sohn of Pittsburgh was called home today by the critical illness of her brother, Joseph Sohn, who is ill with typhoid fever at his home in Thornville. A physician has been called on the case from Columbus, and little hope is entertained for his recovery.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there is no need of having a sallow complexion—dark rings under your eyes—pimples—no, you will look in your face—your eyes will sparkle.

Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action, but always effective.

They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by taking up the liver and clearing it of its impurities.

You will know Dr. Edwards' Olive Tablets by their olive color. One and two per box. All druggists.

THREE SUDDEN DEATHS OCCUR IN VICINITY

SYLVESTER KINNEY WITHOUT A MOMENT'S WARNING STRUCK WHILE BUILDING FIRE.

John W. Holler Died Soon After Hearty Meal—Other Deaths Funerals.

Death came suddenly to three Licking county people in the 36 hours from midnight Saturday to noon Monday. John W. Holler, 72, residing a mile south of Granville, died after a few hours illness about midnight Saturday. Daniel M. Wright, 57, residing on the David Pigg farm east of the city, was stricken while in the farm yard Sunday and on Monday morning, Sylvester Kinney, 72, an old soldier, fell prostrate across the kitchen stove, when he was preparing to start a fire to prepare breakfast.

Coroner W. L. Jackson, who was called down to Mr. Kinney died, found that death was due to heart trouble. Kinney had just gone to the kitchen to start the fire to prepare breakfast, when he was seized with the fatal attack. He fell across the stove and died almost instantly.

His body was found by his wife who arose a few minutes later and followed her husband to the kitchen. Mr. Kinney was a native of Illinois but has been a resident of Ohio the greater part of his life. He enlisted in Co. G, 55th regiment, O. V. I. during the civil war and served throughout the conflict.

His widow and one sister are the only surviving relatives. The sister lives in Sandusky.

After Coroner Jackson viewed the body, it was removed to the Bazler & Bradley morgue and prepared for burial. No arrangements for the funeral have been made.

Daniel M. Wright.
Daniel M. Wright died suddenly Sunday afternoon at 2 o'clock at the home of William Pigg, east of the city. Mr. Wright had attended church in the morning and later ran from the Pigg home to the barn, some little distance away. The intense cold and the exertion which he underwent caused pleurisy, which ended in a few hours.

He is survived by four children, H. P. Wright and Mrs. H. P. Smith of this city, and Miss Fern and Glen Wright of Fallsburg.

The funeral will be held at 2 o'clock Tuesday morning from the Pigg farm. Interment will be made at Cedar Hill.

John W. Holler.
Within an hour after eating a hearty supper Sunday evening, John W. Holler, 72 years old, living a mile south of Granville, was taken suddenly and violently ill and a few hours later he died.

Mr. Holler was apparently in his usual good health and spirits and the announcement of his death was a shock to his many friends.

He was a native of this county be-

ing born in Madison township, Feb. 22, 1843. He was a son of Henry and Catherine Holler, pioneer residents of the county.

He was united in marriage Jan. 3, 1866, to Hannah Hanawalt who died in 1890. To this union were born three children, two of whom died in infancy. He is survived by his widow, formerly Mrs. Sarah Ward to whom he was married in 1894, and one son, J. Frank Holler, who resides in McKean township.

Brief services will be held at the home south of Granville Wednesday morning at 10:30 o'clock (standard time) and the funeral party will go to Vanatta for services at the Lutheran church at 1:30 p. m.

Kappa Phi sorority delightfully entertained the girls of the Academy Friday afternoon in the chapter house.

Miss Harriet Haggard of Boston, who graduated from Denison last year, and is now traveling secretary of the Student Volunteer, has been the guest of Kappa Phi sorority for a few days. She addressed the conference of the Y. M. C. A., Y. W. C. A. and Student Volunteer held in Doane last evening.

The conclusion of the Oriental supper served by a committee representing these organizations, Miss Haggard has developed into a wonderfully efficient worker in this field of endeavor, and her talk made a distinct impression on her audience.

The wireless station recently installed at the Denison Observatory is now in perfect working order. Mes-

Simple Way To End Dandruff

There is one sure way that has never failed to remove dandruff at once, and I have to dissolve it, then you destroy it entirely. To do this, just get about four pieces of plain, common light brown soap from any drug store (this is all you will need), apply it at night when retiring, enough to moisten the scalp and rub gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely destroy it, and entirely destroy, every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

Asthma-Catarrh and Bronchitis

Can Be Greatly Relieved by the New External Vapor Treatment.

Melt in a spoon a little Vick's "Vapo-Rub" Croup and Pneumonia Salve and inhale the vapors. Put a little up each nostril and at night apply well over throat and chest, covering with a warm flannel cloth. Leave the covering loose around the neck so that the vapors of Menthol, Thymol, Eucalyptol, Camphor, and Pine Tar, that are released by the body heat, may be inhaled all night long. In Asthma and Hay Fever rub Vick's over the spinal column to relax the nervous tension. This treatment is not a "cure," but it has at least the merit of containing no harmful drugs and is sold by all druggists in 25c, 50c, and \$1.00 jars, on thirty days' trial. Vick's is also excellent for all croup and cold troubles.

VICK'S Croup and SALVE

No money will be asked of those who attend this meeting. It is not for the purpose of raising money. It is the desire of the board of managers that every organization in the city doing charitable work of any character, have representatives at the meeting.

This morning a large number of applications for relief were made at headquarters, Room 14, Hibbert & Schaub block. Relief was given to four men and one woman. According to the records of the Associated Charities there are 200 or 350 families in Newark needing help. Some of them are in need of temporary assistance while others are in abject poverty.

The workers state that organizations doing charity work can assist greatly if they will notify the headquarters of the Associated Charities, giving the names of any of those who have been given help. In this way "overlapping" will be avoided and a more equitable distribution of relief can be secured.

There continues to be a greater demand for work than there are positions to be filled. The attention of business men and householders is again called to this need of employment and that odd jobs of an hour or a day are thankfully received. Notify the board, by telephone. Providing work for those in need of relief is the best possible help that can be given.

If You Are Constipated—

If you are bilious—
If you do not digest the food you eat—
If you have belching and a sour taste—
If you have pimples and blotches—
If you have headache and indigestion—
If you have a bad taste in the morning—

Your liver is out of order—it is inactive and the kidneys are probably clogged. To relieve and cure this condition you must take Lax-Tonic—a famous prescription in powdered form. A specific for constipation and biliousness. Twenty-five and 50 cents at Frank D. Hall. Do not take a substitute.

SPEAKER TO TELL OF MISSION OF CHARITIES BOARD

Announcement is made by the board of managers of the Associated Charities of a mass meeting to be held Wednesday night at 8:15 o'clock at Taylor hall, Y. M. C. A. building, when W. E. Hopkins of Granville will speak, telling what the association stands for and what it is trying to accomplish. Mr. Hopkins has had a wide experience in work of this character and has been interested in the movement since its inception. He has followed the work here closely as an observer and with his past experience, he is in position to discuss the work with intelligence,

NOW OPERATES RESTAURANT IN CAPITAL CITY

E. Herve Reynolds, for years a resident of this city and one of Newark's well known musicians, was a visitor in the city today on business. Mr. Reynolds is now pleasantly located at 19 East Spring street and is the proprietor of the Hotel Jefferson restaurant, in the Hotel Jefferson block. Mr. Reynolds states that many of his local friends drop in to see him when they are visiting in the Capital City, and that they will always be provided with the best his place affords.

Throwing Snowballs Must Be Stopped; Arrests May Follow

Complaints have been filed with the police department regarding the practice of boys and young men who have been taking advantage of the recent snow fall, warning is given that an ordinance forbids the practice of throwing snow balls, and that arrests and prosecution will follow if the practice continues. Often, the innocent bystander suffers from the faulty aim or poor control, hence the complaints.

New York Stock Exchange.
(Associated Press Telegram)
New York, Jan. 23.—Stocks showed general gains at the outset of today's session. The market was distinctly firm. Changes were moderate, however, and trading was moderate, there being an absence of last week's heavy overture. Petroleum was the feature of the special group, with an advance of over two points. Stocks advanced in response to the higher price for the metal. Smelting and American can also rose fractionally. St. Paul, Denver and Louisville and Nashville were lower with some easing of the prominent shares by the end of the first half hour.

Reading and U. S. Steel were almost only notable features of the dull market. The decline in the latter point under steady pressure. Weakness of Steel was attended by rumors of a possible dividend suspension in April. Tomorrow's quarterly meeting, together with expectations of an unfavorable statement of earnings for the last quarter of 1914, was the most active factor in the market.

GRAY HAIR

Darkened—Stops Falling Hair—Promotes Its Growth—Look Young Again.

Q-Ban hair color restorer darkens gray, streaked with gray, faded or prematurely gray hair to natural color, making the hair dark, lustrous, soft, abundant, thick and beautiful. Also stops falling hair and promotes its growth. Is Q-Ban hair color restorer sticky? No. Will it injure hair or scalp? Impossible. Is it easy to apply? Yes. Apply like a shampoo to hair and scalp. Can anyone detect that I use Q-Ban? No, because Q-Ban darkens hair evenly and naturally, but your friends will observe that you look younger. Suppose that Q-Ban does not darken my hair or give me satisfaction. In that case do I get my money back? Yes, we guarantee it absolutely. Only 50c for a big 7-oz. bottle with directions for private home treatment of the hair. R. W. Smith, Newark, O. Out-of-town people supplied by mail.

CAPACITY

(Continued from Page 1.) a strange writing upon the wall. The evangelist said that Belshazzar had a premonition of his doom.

"A good sportsman will not shoot a bird unless it is on the wing. That is the way Belshazzar was taken. That very night he saw the writing upon the wall, his blood mingled with the wine on the banquet floor. That is the way two-thirds of us are taken from this life. Death comes when it is the least expected to the majority of people.

"You say that the commandment that says, 'Thou shalt not kill' does not touch you. I want to say there are other ways of killing besides stabbing a man. Some of you are killing your dearest friends by inches. That is worse than stabbing them. There are mothers listening to me whose hearts are breaking over their wayward boy or their wayward girl.

"Let us take another, 'Thou shalt not commit adultery.' I would gladly pass over this one if I could, but facing the dreadful white slave traffic in our country today and seeing the tens of thousands of young girls who are ruined, I say the preachers have kept still on this subject too long. I do not know a quicker way to hell than by this evil. This evil is breaking up more homes than whiskey.

There will be no service tonight, but on Tuesday evening, Dr. Swift will preach on "The Last Words of Jesus."

Tuesday night will be Sunday school night, when it is hoped that the entire school may be present in a body.

SHIP

(Continued from Page 1.) cupied the center of the stage in the debate on the bill saying that they are prepared to continue their attacks on the measure indefinitely and with the Democrats planning to take part in the discussion prospects are that it may be necessary to hold night sessions and probably continuous sessions.

Senator Root led the Republican attack on the administration ship bill in the senate today with a denunciation of the Democratic caucus which made the bill a party measure, of the parliamentary tactics by which the Democrats have so far forced the Republicans to do all the debating, and finally with a denunciation of the bill itself.

The attitude of the Democrats is characterized as a "conspiracy of silence," to put through the bill by pressure of physical weakness.

For ten days, he said, the minority had been compelled to face the prospect of eight hours continuous talking without a word of discussion from the majority; and without more than half a dozen Democratic members in the chamber.

"The fact that this measure cannot have that kind of discussion which it demands at this short session of congress," continued Senator Root, "shows that it ought not to pass at this session.

BANKING

(Continued from Page 1.) out as a hopeful sign that none has taken an open definite stand for either of these measures, however.

The Garver bill gives a greater measure of home rule and decentralization by providing no direct connection between the county auditor, who is to be county assessor and the state tax commission, whereas the Parrett measure permits the tax commission to appoint a board of deputy state tax commissioners in each county to supervise the work of equitable assessments.

An administration license decentralization bill is being prepared in accordance with the views expressed in Governor Willis' message to the assembly the day after he was inaugurated. He urged that some county elective officials be given the licensing power and that a bureau of supervision to detect law violators be substituted for the present state liquor licensing board. Senator McDermott, of Trumbull, chairman of the committee on temperance, may introduce the bill this evening.

A number of legislative leaders favor making the county treasurer,

county recorder, and president of the county commissioners, the local licensing authority.

Representatives and senators from Miami valley counties north of Dayton, who are behind a movement to amend the conservancy law of the Quinlek house bill and Garver senate bill, found a campaign against their measure in rapid progress when they returned today. The allied interests composed of Dayton and Columbus flood protective organizations, and those interested in protection of the Miami valley south of Dayton, were planning to inaugurate a fight to have legislators from all river valleys of the state where floods occurred two years ago, besieged by letters from their constituents, urging that the conservancy act not be changed.

POSITION

(Continued from Page 1.) supplies from the United States would be compelled to keep their armies constantly on a war footing in respect to supplies, involving tremendous expenditures.

The letter reveals also that the United States has taken the position that it cannot permit belligerent vessels to remove from American ships on the high seas any passengers even though they be Germans or Austrians nor can promises be exacted from them not to participate in the war. Such a protest has been sent to France as a result of the search by a boarding party from the French cruiser Conde of an American ship plying between two ports in Colombia.

Officials explained today that the request of the Canadian government for permission to transport "war equipment" across Alaska, which had been refused, as disclosed in Secretary Bryan's letter, referred to a shipment of guns and ammunition from northern Canada. The Canadian authorities wished to bring the guns to Vancouver by sea, involving a journey through a small strip of Alaskan territory, but the Washington government denied the request.

The fact that both Japan and Great Britain had been asked to remove their warships from proximity to Honolulu and New York respectively and that they acceded to the requests attracted wide attention here in view of the possibility that such requests might be repeated because of reports that belligerent ships again were hovering close to the American coasts.

The Washington government's pronouncement in Secretary Bryan's letter on the question of loans was received with much interest because of the many constructions which had been placed on the administration's position. The letter states that so far as the state department is advised, no war loans have been made by foreign governments since President Wilson announced his disapproval of such transactions. The purchase of supplies through the establishment of credits are regarded by Secretary Bryan as purely commercial transactions and not objectionable.

ROCKEFELLER

(Continued from Page 1.) ler's gift of \$100,000,000, establishing the foundation, was described as stipulating that the sum of \$2,000,000 of its income or as much of that sum as he might designate shall be applied during his lifetime to such specific objects within the corporate purposes of the Foundation as he may direct.

The officers declare that they have no expectation of receiving any further funds but that the foundation is entitled to receive gifts from any source. The General Education Board, they say, is an independent corporation with funds of its own; but lump sums have been appropriated for the use of the International Health Commission.

The major part of the work of the Foundation consists, it is stated, in making contributions to other philanthropic agencies.

Explaining why the Industrial Relations Division was created, the Foundation stated: "While the general subject of economic research was under consideration the industrial disturbance in Colorado impressed the president of the Foundation with the great need and public importance of finding an effective means of preventing such conflicts and caused him to urge a far reaching study of industrial relations as the most important immediate inquiry to which the Foundation could direct attention.

In view of the passion aroused in Colorado and the many divergent interests involved there, it was felt that the Foundation itself should not interfere in that situation, but that it was of the utmost consequence that the root causes of that and similar disturbances should be ascertained, and if possible, removed, not only in Colorado but elsewhere. The Rockefeller Foundation is, moreover, a large owner of corporate securities, and in that capacity is itself directly concerned in maintaining harmonious relations between the companies in which it is interested and their employees. It was therefore felt that if the Foundation could work out on a basis compatible with sound economics, a substantial improvement in the relations between capital and labor it would not only discharge its obligation as indirectly a large employer of labor, but would also perform for the general public a greater social service than it could render along usual philanthropic lines.

The Belgian relief work and the promotion of medical education and public health in China are referred to as other instances of the work of the Foundation. But one application has been made to the Foundation in the interest of stunting or improving labor conditions.

Many reports, statements of the purposes of the Foundation as defined by John D. Rockefeller and copies of the measures submitted to congress for the incorporation of the Rockefeller Foundation were submitted to the commission by its request and made public in the statement to-

Colorado strike situation will have observed that no effort has been spared to make it appear that I have attempted to exercise a kind of absolutism over the coal industry in Colorado, and particularly that I have sought to dictate a policy of non-recognition of unions. An attitude toward industry and toward labor such as is here implied is so abhorrent to me personally and so contrary to the spirit of my whole purpose and trafficking that I cannot allow those allegations to pass unnoticed.

"What are the facts? "First, with reference to my attitude toward labor unions: I believe it to be just as proper and advantageous for labor to associate itself into organized groups for the advancement of its legitimate interests, as for capital to combine for the same object. Sometimes they (labor unions) provide benefit features, sometimes they seek to increase wages, but whatever their specific purpose, so long as it is to promote the well-being of the employees, having always due regard for the just interests of the employer and the public, leaving every worker free to associate himself with such groups or to work independently, as he may choose, I favor them most heartily.

"As respects the question of the recognition or non-recognition of labor unions in Colorado, my attitude has been in conformity with the views I have expressed relative to the responsibilities of stockholders, directors and managers. The hiring and discharging of men and the framing of agreements as respects the same are functions which I have regarded as rightfully belonging to the management and not to the stockholders or directors. The Colorado Fuel and Iron company has been managed on that principle. The decision of the officers of the union was reached without any consultation or communication with me, and I had no knowledge of their decision until after the strike had been declared.

"In conclusion, Mr. Chairman," said Mr. Rockefeller, "quite apart from any particular situation, may I express in utter frankness the views which as an individual and citizen I hold towards the problems into which your commission has been appointed to inquire? I believe that the ultimate object of all activities in a republic should be the development of the manifold of its citizens; that such manifold can be developed to the fullest degree only under conditions of freedom for the individual and that industrial enter-

prises can and should be conducted in accordance with those principles. I believe that a corporation should be deemed to consist of its stockholders, directors, officers and employees; that the real interests of all are one, and that neither labor nor capital can permanently prosper unless the just rights of both are conserved. If, with the responsibilities I have and the opportunities given me, I am able to contribute towards promoting the well being of my fellow men, through the lessening of injustice and the alleviation of human suffering, I shall feel that it has been possible to realize the highest purposes of my life."

SOLDIERS

WILL GUARD THE BORDER BETWEEN CANADA AND THE UNITED STATES.

Dominion Militia Will Prevent Reservists of England's Enemies Crossing Over the Line.

(ASSOCIATED PRESS TELEGRAM)
Vancouver, B. C., Jan. 25.—Major W. Tait and Col. F. B. Gregory, of the Canadian national reserve, purposed going to Victoria today to lay before Major General Sam Hughes, minister of militia, a plan for guarding with men of the reserve force, the boundary line between Canada and the United States.

According to the officers, they will propose that the reserve be stationed along the border to keep out of hostile citizens of the countries with which Great Britain is at war and prevent reservists of those countries now in Canada from crossing into the United States. Co-operation of the United States officials would be sought.

IT HAPPENED IN NEWARK.

And Is Happening to Newark People Every Week.

The case told below is not an uncommon thing. The same occurs frequently and will continue to happen as long as folks have kidneys and overtax the kidneys.

Mrs. Julia Rost, 140 W. Main street, Newark, says: "About a year ago I read of Doan's Kidney Pills in the paper and as the symptoms I was suffering from were the same as those I had, I knew I was afflicted with kidney complaint. My back troubled me and if I did any sweeping or housework, I was liable to have sharp stitches across my joints. At night my back pained me and I was often troubled by dizziness, especially when I stooped over. Dark specks floated before my eyes and I had headaches. The kidney action was irregular. I took about two boxes of Doan's Kidney Pills and they made my kidneys more normal and relieved the pains in my back. Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Rost had. Foster-Milburn Co., Props., Buffalo, N. Y."

RHEUMATISM A MYSTERY

Some diseases give immunity from another attack but rheumatism works just the other way.

Every attack of rheumatism invites another. Worse than that it reduces the body's power so that each attack is worse than the one before.

If any disease needs curing early it is rheumatism but there is almost no disease which physicians find more difficult to treat successfully. When a medicine does help rheumatism nobody knows how or why it does it.

All authorities agree that the blood becomes thin with alarming rapidity as rheumatism develops. Maintaining the quality of the blood therefore is a reasonable way of preventing and combating rheumatism. That it works out in fact is shown by the beneficial results in the treatment of rheumatism, acute, muscular and articular, with the blood tonic, Dr. Williams' Pink Pills.

That hundreds who take Dr. Williams' Pink Pills for their rheumatism get well is a fact beyond dispute. That the rheumatism does not return as long as the blood is kept rich and red is equally true. Write the Dr. Williams' Medicine Co., Schenectady, N. Y., for the free pamphlet "Building Up the Blood" and kindly mention this paper. Your own druggist sells Dr. Williams' Pink Pills.

TONG WAR OPENS IN CALIFORNIA; 3 CHINESE DEAD

San Francisco, Jan. 25.—Three Chinese were shot and killed and a number wounded in a Tong war, which broke out in several California cities last night. Quong Quok Wah, president of the Sen Suey Yings and one of his fellow Tong men were killed in the fighting here and another met a like fate at Stockton. Clashes in Oakland and at a small settlement several miles from Stockton caused the wounding of two other Chinese.

The war began at a peace meeting here of representatives of the Sen Suey Yings, Suey Yings and four companies to patch up quarrels, which had been smoldering for a year.

This is the first Tong outbreak in the West in many months.

Members of the Roth-child family are fighting in three armies, three in the British, three in the Frankfurt branch in the German, and two of the Austrian family with the Austrian army.

SWITZERLAND HAS FORBIDDEN SALE OF CHOCOLATE ABROAD

(ASSOCIATED PRESS TELEGRAM)
Berne, Switzerland, Jan. 25.—The federal council has adopted a decree prohibiting the export of chocolate, vinegar, manufactured india rubber and electric cables. Swiss chocolate has been exported in large quantities, both to France and Germany, that there is danger that there will be none left for home consumption.

**Zanesville Women
Raise \$14,000 For
Church In 5 Years**

In the five years that the Women's Congregational society of Central Presbyterian church of Zanesville has been organized there has been a total amount of \$14,024 raised in the past year. The annual meeting of the society was held on Friday afternoon in the ladies' parlor of the church and the reports were read. The society has paid \$5,000 directly on the new church building and the remainder of the money has been used for other expenses of the church.
